

BROOKINGS CTC FRAMEWORK & PROCESS

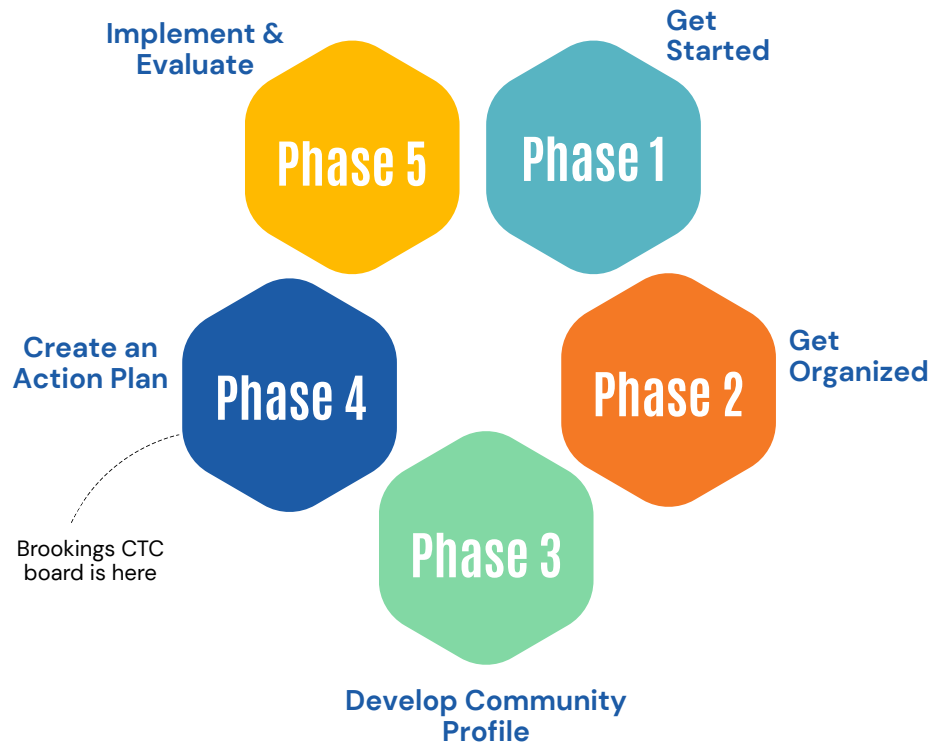

Brookings Area
UNITED WAY

Vision: Brookings strives to be a community rooted in safety, belonging, and positive relationships to empower youth.

Led by a Brookings community board, the Communities That Care (CTC) framework uses an evidence-based, results-driven approach to support positive youth development for local middle and high school students.

Drawing on SEARCH Institute youth survey data from the Brookings School District, the board identifies key risk and protective factors to guide the implementation of targeted, tested and effective programs, policies, and practices that foster long-term healthy behaviors in youth.
